ENGINEERING SERVICES

PLANT
CONSTRUCTION

The EPC Group is an internationally active engineering and plant construction company as well as provider of innovative technologies. The company's activities are focused on the planning and implementation of infrastructure projects and industrial facilities in the areas of chemicals and pharmaceuticals, polymers and fibers, technical gases, biotechnology as well as renewable energy. With over 145 years of engineering tradition the family business is now represented by over 300 highly motivated professionals at eight locations in Germany and one office in Russia.

We are currently looking for an:

PROJECT MANAGER

to join our team in Arnstadt:

YOUR RESPONSIBILITIES

- Management of investment and expansion projects during various project phases
- Project Team Management of different technical departments for the compliance of quality, safety, costs and deadlines
- Preparation of offers and calculations
- Coordination of planning activities
- Negotiations with clients and suppliers
- Management of internal and external project meetings
- Monitoring and documentation of the project progress as well as internal and external reporting

YOUR QUALIFICATIONS

- University degree (e.g. in the field of Process Engineering, Mechanical Engineering, or similar qualifications)
- Working experience in processing and planning of similar projects
- Strong communication skills and a high degree of customer focus
- Ability to work in a team, flexibility and interest in varied tasks
- Ability to work independently, result-oriented and a profound sense of responsibility
- Willingness to travel to support project deployments
- Good knowledge of MS Office and MS Project
- Working experience with CAD and CAE
- Language skills in German/English (Russian is a plus)
